Key handbooks

Statistics:

- **OpenIntro Statistics** David Diez, Mine Çetinkaya-Rundel, and Christopher Barr. 2019. <https://www.openintro.org/book/os/> or <https://www.biostat.jhsph.edu/~iruczins/teaching/books/2019.openintro.statistics.pdf>
 - 1.3 Sampling principles and strategies
 - 1.4 Experiments
 - Chapter 2 Summarizing data
 - 3.1 Defining probability
 - * 3.1.2 LAW OF LARGE NUMBERS
 - 3.4 Random variables
 - 3.5 Continuous distributions
 - 4.1 Normal distribution
 - Chapter 7 Inference for numerical data
 - Chapter 8 Introduction to linear regression

Econometrics:

- **Mastering 'metrics : the path from cause to effect** / Joshua D. Angrist and Jörn-Steffen Pischke. Princeton University Press, 2015. <https://justfind.hds.hebis.de/Record/HEB35797798X>. Only:
 - Chapter 1 Randomized Trials 1
 - Chapter 2 Regression

Notable additions

- Fundamentals of Data Visualization by Claus O. Wilke (2019) available at : <https://clauswilke.com/dataviz>
 - more about visualizing distributions. Pay attention to Part I: From data to visualization. Chapters 6 - 9
- More on Income and Inequality:
 - What is Gini coefficient: <https://ourworldindata.org/what-is-the-gini-coefficient>
 - Global outlook: <https://ourworldindata.org/the-history-of-global-economic-inequality>
